CURRENT PRICE LIST

FOR EARLY ORDERS

prices on large quantities. We recommend early ordering. If no agent at your station, add sufficient to prepay freight or express. If you remit too much, surplus will be promptly refunded. If required by parcel post, your Postmaster will tell you in what zone from Mitchell you are located so that you may include correct postage with your remittance.

Should prices have changed when your order is received, if lower, we will refund balance, if higher, we will either reduce your order to the amount remitted, or ship C. O. D. for the balance, as you prefer.

Current Prices, February 2nd, 1942, F. O. B. Mitchell, So. Dak.

See your local dealer for **Disco SEEDS** If he cannot supply, write us.

The Dakota Improved Seed Company gives no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds it sells and will not be responsible for the crop.

Grow Well Because They Are Well Grown

DISCO SEEDS CAN BE OBTAINED FROM
YOUR LOCAL DEALER

Our country needs paper and we are curtailing our catalog for that reason. Although we may have deleted a few varieties of vegetable and flower seeds, we have included the most popular and useful. We are glad to say that our stocks are good in regard to germination and purity. Some varieties are very scarce and exceptionally hard to get. Those who order early can expect to get the best selection.

Disco Selected Field Seeds

All our field seeds are selected with the greatest care, grown in districts where our long experience has proved to us produce the best. Thoroughly re-cleaned and tested for germination and purity. Free from all noxious weeds.

All field seeds and seed corn are quoted F. O. B. Mitchell subject to market change. Cotton bags on Alfalfa, Clovers and Grasses are 35c each extra. Bags on all other seeds at value.

OUR BRANDS

DISCO BRAND. Seed to qualify for this Brand must represent the cream of the crop, free from noxious weeds and of exceptionally high purity and germination.

EMERALD BRAND. Good quality seed fully equal to much of the so called number one seed.

SUNSHINE BRAND. Good general purpose seed, free from harmful or noxious weeds, good germination.

LOWER GRADES. We have many lots of lower grade than those offered in this list. If interested ask for special prices and samples, stating quantities required.

DISCO ALFALFA

All our regular Brands of Alfalfas are shipped out in sealed bags, and origins supported by U. S. Verified Origin Certificate. Look for this seal and certificate which insures genuineness.

All our Alfalfas are hardy, northern grown.

GRIMM—Our stocks of this well known variety have been grown under the most exacting conditions, both in regard to drouth and climate. Sow 10 to 15 lbs. per acre.

Sunshine, per 100 lbs.....	\$36.00
Emerald, per 100 lbs.....	37.00
Disco, per 100 lbs.....	38.00

COSSACK—The dry years experienced in the northwest have demonstrated the unusual drought resistant qualities of Cossack Alfalfa. Sow 10 to 15 lbs. per acre.

Sunshine, per 100 lbs.....	\$37.00
Emerald, per 100 lbs.....	38.00
Disco, per 100 lbs.....	39.00

BALTIC—Dakota Improved Seed Company are the promoters and breeders of the Baltic alfalfa. Placing your order with them assures you will get the original Disco Baltic alfalfa seed. Sow 10 to 15 lbs. per acre.

Disco, per 100 lbs.....	\$38.00
-------------------------	---------

DAKOTA 12—A native of the Black Hills district, giving excellent results to many of our customers. We are glad to say that we have an excellent stock this season. Sow 10 to 15 lbs. per acre.

Sunshine, per 100 lbs.....	\$35.00
Emerald, per 100 lbs.....	36.00
Disco, per 100 lbs.....	37.00

REGISTERED ALFALFA STATE SEALED AND CERTIFIED SEED—The South Dakota Crop Improvement Association and the Wyoming Department of Agriculture have a resident inspector in Mitchell who is available to open and re-seal the bags containing any quantity desired.

In buying State Sealed Seed be careful to examine the seals and tags.

Registered Blue Tag Grimm, per 100 lbs.....	\$40.00
Registered Blue Tag Cossack, per 100 lbs...	42.00
Registered Blue Tag Ladak, per 100 lbs.....	42.00

For Customers Who Prefer Not to Pay for Pedigreed Alfalfa We Provide These Common Varieties of

HARDY DOMESTIC GROWN COMMON ALFALFA

We have excellent stocks of seed grown in South Dakota, Montana, and Wyoming. All grown under the severest possible climatic conditions. Grown on new land free from noxious weeds and free from disease.

DISCO CLOVERS

TALL SWEET CLOVER—This is by far the most popular biennial, variety. It stores up a tremendous quantity of reserve food in its deep tap root. Sow 12 to 15 lbs. per acre.

Sunshine, per 100 lbs.....	\$12.00
Emerald, per 100 lbs.....	12.50
Disco, per 100 lbs.....	13.00

YELLOW DWARF—This variety is also a biennial, growing a crop the first year; flowers, bears seed and dies at the end of the second year. Stems are finer. Sow 12 to 15 lbs. per acre.

Emerald, per 100 lbs.....	\$12.50
Disco, per 100 lbs.....	13.00

GRUNDY COUNTY (Dwarf White)—A biennial. It is earlier, grows to a medium height, does not require clipping, matures its seed earlier and more uniform. Sow 10 to 12 lbs. per acre.

Disco, per 100 lbs.....	\$13.00
-------------------------	---------

HUBAM—Annual White. Where it is considered desirable to have the crop make its growth, flower, form seed and die in one year, Hubam has advantages. Sow 10 to 12 lbs. per acre.

Disco, per 100 lbs.....	\$18.00
-------------------------	---------

ALSIKE or SWEDISH CLOVER—Produces the finest quality of clover hay; unusually hardy, and well adapted for pasture. Thrives best on low lands. Sow 5 to 6 lbs. per acre.

Disco, per 100 lbs.....	\$25.00
-------------------------	---------

MEDIUM RED CLOVER—Insist on domestic grown seed. Sow 8 to 12 lbs. per acre.

Disco, per 100 lbs.....	\$25.00
-------------------------	---------

DISCO GRASS SEED

BROME GRASS—Grows to an average height of 30 inches. The leaf growth very abundant. Can endure extreme cold. Sow 20 to 25 lbs. per acre early in Spring or late in Fall.

Canadian No. 1, per 100 lbs.....	\$20.00
Domestic, per 100 lbs.....	19.00

BROME GRASS—PARKLAND—A new variety introduced in Western Canada, has not as heavy a root system as the Bromus inermis, said to do better in sections having an abundant rain fall. Sow 20 to 25 lbs. per acre early in Spring, or late in Fall.

Canadian No. 1, per 100 lbs.....	\$20.00
----------------------------------	---------

CRESTED WHEAT GRASS—Sow Crested Wheat Grass just as soon as you can get on the land in the spring. If fall seeding is more desirable, sow in September or October or just before freeze up. Never sow Crested Grass deeper than one-half inch. About 15 to 20 pounds per acre is the required amount when seeded with a grain drill which in our opinion is the best method for seeding.

Fairway Strain, per 100 lbs.....	\$18.00
Standard Strain, per 100 lbs.....	18.00

SLENDER WHEAT GRASS—This is one grass which we never hesitate to recommend. Its hardy, drought resistant nature has made it a favorite. Sow 15 to 20 lbs. per acre.

Disco, per 100 lbs.....	\$18.00
-------------------------	---------

WESTERN WHEAT GRASS—A grass native to the Great Plains region where it will give good results with a small amount of moisture. Very hardy, makes excellent pasture, and hay is relished by stock. Sow 15 to 20 pounds per acre.

Disco, per 100 lbs.....	\$15.00
-------------------------	---------

RED TOP, Solid Seed—Grows most luxuriantly on moist, rich soils; very robust; produces strong, thick roots and makes a firm sod; very desirable for pasture purposes. Sow 6 to 8 pounds of solid seed per acre.

Disco, per 100 lbs.....	\$15.00
-------------------------	---------

REED CANARY GRASS—A hardy perennial Grass Suitable for hay or pasture—Boggy or marshy land can be transformed from a liability into an asset by seeding with this Canary Grass. Should be broadcast 5 to 6 pounds per acre, drilled to 3 pounds per acre in 16 to 18 inch rows.

Disco, per 100 lbs.....	\$38.00
-------------------------	---------

TIMOTHY—Almost too well known to necessitate any description. A hardy perennial, having strong resistance to both cold and drought. Sow 10 to 15 pounds per acre.

Disco, per 100 lbs.....	\$9.50
-------------------------	--------

DOMESTIC RYE GRASS—Well adapted for quick pastures, meadows and lawns. Can be closely cropped. Will give best results on moderately rich soil. Should be sown at the rate of 25 to 35 pounds per acre.

Disco, per 100 lbs.....	\$10.00
-------------------------	---------

Sorghums for Fodder

Don't plant any forage crop seed before the soil is thoroughly warmed up.

WACONIA SORGHUM "Genuine Originator's Stock"—The popularity of this variety increased to such a high pitch last season that we were entirely sold out long before the end of the selling season. Drilled 10 to 12 lbs. per acre.

Sealed Blue Tag, per 100 lbs.....	\$5.25
-----------------------------------	--------

ATLAS SORGO—Gives a tremendous yield per acre not only in forage but in grain as well. The grain has approximately 90 per cent of the feeding value of corn. The usual quantity sown per acre is 4 to 5 pounds. Per 100 lbs.....

\$3.75

NEW LOW PRUSSIC ACID CONTENT EARLY BLACK AMBER No. 39-30-S—Our stock is certified, or grown from certified seed. Drilled 10 to 12 pounds per acre.

Certified, per 100 lbs.....	\$4.25
Affidavit, per 100 lbs.....	3.50

EARLY BLACK AMBER—The Amber is the earliest of all the fodder canes. Will stand extremely dry, hot weather. Considered excellent for feeding stock. Sow 40 to 60 pounds broadcast; 10 to 12 pounds drilled per acre.

Southern Grown, per 100 lbs.....	\$3.25
So. Dak. Grown, per 100 lbs.....	2.75

HONEY DRIP—A very popular variety in many sections of South Dakota and Iowa, has a higher sugar content than the Amber cane. Drilled 10 to 12 pounds per acre.

Southern Grown, per 100 lbs.....	\$3.25
So. Dak. Grown, per 100 lbs.....	2.75

SORGHUM, Disco Sweet—This is a true variety of sorghum cane for fodder or syrup. It has everything a good sorghum cane should have. Give it a trial, as we thoroughly recommend it. Drilled 10 to 12 pounds per acre.

Southern Grown, per 100 lbs.....	\$4.50
----------------------------------	--------

COES—A combination of grain and forage crop. Will grow between 5 and 5½ feet tall, producing a heavy crop of forage and seed. Matures in about 90 days in an average season.

Per 100 lbs.....	\$3.00
------------------	--------

SUDAN GRASS—Don't plant Sudan grass too early. It will not withstand frost. Leave seeding until after corn planting. Sudan is the ideal catch crop for hay. Broadcast 20 to 25 pounds. Drilled, 8 to 12 pounds per acre. Per 100 lbs.....

\$3.75

Sorghums for Grain

All our Grain Sorghums are treated with a known and recommended Seed Disinfectant which will control smut.

COLBY MILO—A grain sorghum which has proved itself to be one of the best, not only in heavy yield but also in combating drouth, grasshoppers, and other adverse conditions which the Northwest generally speaking has encountered these past few years. Plant 3 to 4 pounds per acre.

Certified, per 100 lbs.....	\$3.35
Affidavit, per 100 lbs.....	2.85

SOONER MILO—This variety of grain sorghum has given good results in various sections due to its ability to withstand drouth. Is taller growing than Colby. Plant 3 to 4 pounds per acre.

Certified, per 100 lbs.....	\$3.35
Affidavit, per 100 lbs.....	2.85

EARLY KALO—A variety of grain sorghum which was introduced at the Ft. Hays Experiment Station, Hays, Kansas. It proved to be one of the best grain sorghums raised in this section last year. Per 100 lbs.....

\$3.35

FETERITA—One of the outstanding grain sorghums. Early and very drouth resistant, grows 5 to 6 feet tall and has abundance of leaves which make excellent fodder. The grain is ideal for all livestock. Drill 4 to 5 pounds to the acre.

Per 100 lbs.....	\$3.50
------------------	--------

DISCO MILLETS

HAY MILLETS

GERMAN MILLET—One of the best millets for hay, and should be cut when in full bloom. Sow 25 pounds per acre. Per 100 lbs. \$4.00

DISCO SIBERIAN MILLET—A very fine millet. Unusually early, extremely hardy and withstands drouth. Sow 30 pounds to the acre. Per 100 lbs. \$4.00

DISCO BILLION DOLLAR GRASS—Will grow from 6 to 9 feet tall. Stands up remarkably well and yields enormous crops. Sow 20 pounds to the acre. Per 100 lbs. \$4.50

GRAIN MILLETS

HOG or WHITE PROSO—Grows from 18 inches to 36 inches. For hay purposes use from 30 to 40 pounds, and for seed from 8 to 12 pounds per acre. Per 100 lbs. \$2.50

DISCO EARLY FORTUNE RED PROSO—Is the same type as white proso except that the color of the seed is red. Sow the same amounts as Proso millet. Per 100 lbs. \$2.50

DISCO VORONEZH "BLACK PROSO MILLET"—Voronezh Millet should be sown at the same time as other Proso Millets. Sow the same amount as Proso Millet. Per 100 lbs. \$3.00

DISCO HYBRID SEED CORN

DISCO HYBRID 939—110 DAYS—There is more Hybrid 939 grown in the United States than any other hybrid variety. Unlike many hybrids the grain is not flinty and is therefore ideal for either feeding or cash sale purpose. We recommend this variety for all counties south of Highway 34 which runs through Sanborn, Miner, Lake and Moody counties. Edge Drop, per bushel. \$5.00
Hill Drop, per bushel. 4.00

DISCO 403—105 DAYS—Minhybrid 403 matures in about 105 days. It produces a long smooth dent, sixteen to twenty rowed ear, high quality grain. This variety is adapted to southern Minnesota, Wisconsin, South Dakota and similar territories and northern Iowa. Edge Drop, per bushel. \$6.50
Hill Drop, per bushel. 5.50

JACQUES NORTHERN GROWN HYBRID SEED CORN—We are pleased to advise our dealers and customers that we can now supply them with Jacques Northern Grown Hybrid Seed Corn.

1. You are getting a **PROVEN VARIETY**.
One swallow does not make a summer, and neither does one summer make a test of a hybrid variety. Every hybrid variety sold by the Jacques Seed Company has been **PROVEN** through at least three seasons' test, for superior **YIELD, STANDING ABILITY, GRAIN QUALITY, UNIFORMITY, and RESISTANCE** to adverse weather and to the disease organisms that cause smut, rot and mold. You don't have to "try" Jacques **PROVEN** Hybrids—they have been tried and proven for you, and you can plant them with confidence.

2. You are getting **PROVEN DEPENDABLE MATURITY**. Jacques **PROVEN** Hybrids are northern bred and northern grown and are accurately tested for relative maturity through several seasons.

3. You are getting a **PURE Hybrid**.
Every impure kernel averages to produce up to one-third less corn than a pure hybrid. That is why even the same foundation lines in the hands of different seed growers may produce widely different results. Jacques seed fields are ideally isolated, and planting, roguing, detasseling and harvesting are under the supervision of **EXPERTS. THIRTY-TWO YEARS' EXPERIENCE** has developed the Jacques system of handling seed corn in tagged small lots through all grow-

ing and processing operations, to avoid contamination.

4. You are getting **VIGOROUS Germination Tested Seed**. Inexperienced operators may seriously weaken the seed in the drying process, even if they do not kill it. Jacques Seed Company owned and operated the **FIRST** large commercial Wright Seed Corn Drier, and the first Improved Wright Seed Corn Treater, and are recognized experts on the proper curing and treating of seed corn.

5. You are getting **EVENLY GRADED Seed, Planter-Plate Tested**. You can't get the advantages of hybrid corn from a poor stand. Jacques **PROVEN** Hybrids are accurately graded with the most modern equipment, for length, width, and thickness of kernel! Each grade is tested in actual corn planters, and a printed sheet with each bag, tells you the planter plate to use for uniform drop.

Can supply Jacques Northern Grown Hybrid Seed Corn in the following maturity date: 80, 85, 90, 95, 100, 105, 110, 115, 120 days. Write for very interesting book on Jacques Proven Hybrid Seed Corn.
Large Round, per bushel. \$4.75
Medium Round, per bushel. 5.75
Flats, per bushel. 7.75

Disco Open Pollinated SEED CORN

YELLOW DENTS

DISCO SPECIAL—South Dakota's Best Known Variety—The best ninety day yellow dent on the market. Has a very leafy growth and attains a height of from 7 to 8 feet. Per bushel. \$2.25

MINNESOTA 13—Introduced by the Minnesota Agricultural College. Average ear usually 7 to 9 inches long, maturing in 90 days. Per bu. \$2.25.

GOLDEN JEWEL—Adapted to South Dakota and Iowa, producing a compact ear, 8 to 9 inches long. Will mature in 95 to 100 days. Per bu. \$2.25.

EARLY MURDOCK—Matures in 95 to 100 days. Stalks medium in height. Ears from 7 to 8 inches, having 16 to 20 rows. We recommend it for southern South Dakota, southern Minnesota, and northern Iowa. Per bushel. \$2.25

FULTON YELLOW DENT—Ninety-day corn selected and named at Fulton, South Dakota. Used by many of our customers around Mitchell. Per bushel. \$2.25

SILVER KING WHITE DENT—A very early White Dent corn that will mature in 90 to 95 days under normal conditions. Ears 8 to 9 inches long with 16 rows of deep grain kernels. Per bushel. \$2.25

NORTHWESTERN RED DENT—Red in color with a white cap. Will mature in 80 to 90 days and is an excellent corn for hogging off. Per bushel. \$2.25

EARLY CALICO—Earlier than most large dent varieties. A heavy yielder of both corn and fodder. Usually will do well on poor type soil where other corns fail. Per bushel. \$2.25

FLINT VARIETIES

Specially suited for late planting. Show great resistance to grasshoppers.

RAINBOW FLINT CORN—Specially suited for late planting and will give a good yield. It is excellent for hogging off. Per bushel. \$2.25

GENUINE SQUAW CORN—The earliest corn grown. Very resistant to drought, good yielder and excellent for late planting and hogging off. Per bushel. \$2.25

Dwarf Essex Rape

DWARF ESSEX RAPE—It is considered a valuable feed crop for young stock, as rape contains the necessary elements which will give them proper growth. Sow from April to August, 4 to 5 pounds per acre. Disco, per 100 lbs. \$20.00

Disco Soy Beans

"DISCO" SOY BEANS—It has been proved the last few years that Soy Beans can be grown successfully anywhere that corn is grown and is an excellent substitute.

MANCHU—Plants stout, erect, bushy, 38 inches high, maturing in about 105 days, taking 55 to 65 days to bloom. Disco, per 100 lbs. \$5.00

DISCO MUKDEN—Plants stout, erect, bushy, 36 inches high maturing in about 100 days; flowers, white and purple taking 50 to 60 days to bloom. Yield about the same as Manchou. Disco, per 100 lbs. \$5.00

Field or Shell Beans

Grow these for winter use. All our seed is northern grown, perfectly acclimated and will grow quickly and mature rapidly.

GREAT NORTHERN—Originally grown by the Indians, very hardy and early. Disco, per 100 lbs. \$7.00

SMALL WHITE NAVY—Grown so that their earliness is assured. Skin very thin and bean of excellent flavor. Disco. Ask for Prices

Disco Improved Seed Grains

If you are in the market for Seed Grain, it will pay you to write us, as we are in close touch with some of the best growers of wheat, oats, barley, rye, speltz, flax, buckwheat, sunflower, etc. All seed grains put out by us are thoroughly cleaned and free of any noxious weeds.

Disco Lawn Grass

DISCO EVERGREEN MIXTURE—Long experience in the preparation of Lawn Mixtures has resulted in this now famous blend. Disco Evergreen represents the very finest scientific combinations of dwarf and close growing grasses, producing a soft, velvety turf in remarkably short time. Made up entirely from our own exclusive formula, blended in proportions we know for our rigorous climatic conditions. Sow at the rate of 1 pound per 250 square feet. 1 lb., delivered. \$4.00

WHITE DUTCH CLOVER—A dwarf-growing clover. Very valuable for lawn purposes. Requires little care and maintains its dark green color with very little watering. Your White Dutch must be pure—cheap, impure seed will spoil your lawn. 1 lb., delivered. \$1.00

GENUINE CREEPING BENT—Has many outstanding qualifications which favor it above all other varieties. Forms sod very quickly, spreads rapidly. Fine leaves, bright green color is especially well maintained during hot weather. Sow at the rate of 1 pound per 250 square feet. 1 lb., delivered. \$1.20

KENTUCKY BLUE GRASS—Also known as "June Grass." Produces an excellent pasture of beautiful verdant green, and is particularly adapted for seeding on a pasture field surrounding the home, where a good sod is desirable. Sow from 30 to 40 pounds per acre. Per lb. delivered. \$.35
Ask for price on large quantities.

VIGORO

We now have Vigoro in tablet form, the ideal food for house plants. 10c per carton containing 24 tablets. Full directions enclosed. Postage extra. Price, 1 lb., 10c; 5 lbs., 45c; 10 lbs., 85c; 25 lbs., \$1.50; 50 lbs., \$2.50; 100 lbs., \$4. Not delivered.
